Dear Tom

I felt it necessary to express my gratitude to yourself after you resolved our electricity issues in the most efficient and timely manner. I have come across many tradesman over the years and your service was exemplary.

After waking up to no electricity on a Monday morning - Your quick response ensured our issue was dealt with **that** day and your personable manner impressed my wife in that she felt very comfortable with your company in the house.

I must say your service was excellent and I would not hesitate to contact you again and to recommend you and your services to anyone and everyone!

Yours sincerely
